Dhole Patil College of Engineering

First Year of Engineering (2024 Pattern)

Course Code: IKS-151 Course Name: Indian Knowledge System

Assignments for Term Work

Assignment 4

Students should complete the assignment as stated in the Instructions.

Learning Outcome: Enhances research skills and understanding of the historical context.

NOTE: Enhance your presentation by including relevant pictures, diagrams, and illustrations. Make it visually appealing with decorative elements such as borders, color themes and pictures that reflect the cultural and environmental aspects of your project.

Instructions

- Write **topics** from the given list
    1. 1 topic from Section A: Ancient Indian Architecture — Vastu Shastra & Temple Architecture
    2. 1 topic from Section B: Trade and Commerce in Ancient India
- Write **each topic separately**
- Use **headings**
- **400 -500 words per heading**
- Do the write up according to the instructions given after the topics.

Section A: Ancient Indian Architecture — Vastu Shastra & Temple Architecture (5 Topics)

1. Vastu Shastra — Principles of Ancient Indian Architecture
Study the fundamental principles of Vastu Shastra, including directions, spatial arrangement, and harmony with nature.

2. Vastu Purusha Mandala — Cosmic Design in Architecture
Explain the concept of the Vastu Purusha Mandala and its role in planning buildings and sacred spaces.

3. Nagara Style of Temple Architecture — Features and Structure
Explore the characteristics of North Indian temple architecture, including Shikhara, Garbhagriha, and Mandapa.

4. Dravida Style of Temple Architecture — Design and Symbolism
Study South Indian temple architecture, including Vimana, Gopuram, and temple complexes.

5. Rock-Cut Architecture in Ancient India — Ajanta, Ellora, and Elephanta Caves
Examine the development of rock-cut architecture and its artistic and religious significance.

Section B: Trade and Commerce in Ancient India (5 Topics)

6. Trade in the Indus Valley Civilization — Urban Economy and Exchange Systems
Study trade practices, standardized weights, seals, and trade networks of the Indus Valley Civilization.

7. Inland Trade in Ancient India — Trade Routes and Market Systems
Explore land-based trade routes, local markets, and internal commerce across regions.

8. Maritime Trade in Ancient India — Overseas Trade with Rome and Southeast Asia
Examine sea trade routes, ports, and exchange of goods with foreign civilizations.

9. Guild System (Shreni) in Ancient India — Organization of Trade and Crafts
Understand how guilds functioned, their rules, and their role in economic organization.

10. Currency and Coinage in Ancient India — Evolution of Monetary Systems
Study the development of coins, barter systems, and their impact on trade and economy.

For each topic, students have to write:
1. Title: Write the exact topic name
2. Introduction (1 short paragraph)
3. Background / Context
4. Explanation (Most important part)
5. Significance
6. Contribution to Indian Knowledge Systems
7. Present-Day Relevance
8. Conclusion
9. References

Writing Rules

- Paragraph form (no bullet answers)
- Simple, clear language
- No plagiarism, No copying from others (5 marks will be deducted if found so)
- Proper headings compulsory
