Dhole Patil College of Engineering

First Year of Engineering (2024 Pattern)

Course Code: IKS-151 Course Name: Indian Knowledge System

Assignments for Term Work

Assignment 5

Students should complete the assignment as stated in the Instructions.

Learning Outcome: Enhances research skills and understanding of the historical context.

NOTE: Enhance your presentation by including relevant pictures, diagrams, and illustrations. Make it visually appealing with decorative elements such as borders, color themes and pictures that reflect the cultural and environmental aspects of your project.

Instructions

- Write **topics** from the given list
    1. 1 topic from Section A: Arthashastra
    2. 1 topic from Section B: Ancient Indian Art and Culture
- Write **each topic separately**
- Use **headings**
- **400 -500 words per heading**
- Do the write up according to the instructions given after the topics.

Section A: Arthashastra (5 Topics)

1. Kautilya's Arthashastra — Principles of Governance and Statecraft

Study the political philosophy, administration, and governance model described by Kautilya, including the role of the king and state machinery.

2. Saptanga Theory of State — Seven Elements of a Kingdom

Explain the seven components (Swami, Amatya, Janapada, Durga, Kosha, Danda, Mitra) and their role in maintaining a strong state.

3. Economic Policies in Arthashastra — Taxation, Trade, and Revenue System

Analyze how Kautilya designed taxation, regulated trade, and managed state revenue.

4. Surveillance System in Arthashastra — Role of Intelligence and Secret Agents

Explore the elaborate spy system, types of spies, and their importance in governance and security.

5. Law and Justice System in Arthashastra — Danda Niti (Rule of Law)

Discuss legal administration, punishments, and how justice was maintained in society.

Section B: Ancient Indian Art and Culture (5 Topics)

6. Indus Valley Civilization Art — Town Planning and Sculpture
Study urban planning, seals, pottery, and artistic achievements of the Indus Valley Civilization.

7. Mauryan Art and Architecture — Ashokan Pillars and Stupas
Examine the development of stone architecture, pillars, and stupas during the Mauryan period.

8. Buddhist Art — Symbolism and Stupa Architecture
Understand the features of Buddhist art, including stupas, chaityas, viharas, and symbolic representation of Buddha.

9. Gupta Period Art — Golden Age of Indian Sculpture and Painting
Analyze advancements in sculpture, temple architecture, and paintings (like Ajanta caves).

10. Temple Architecture in Ancient India — Nagara and Dravida Styles
Compare North Indian (Nagara) and South Indian (Dravida) temple architectural styles.

For each topic, students have to write:
1. Title: Write the exact topic name
2. Introduction (1 short paragraph)
3. Background / Context
4. Explanation (Most important part)
5. Significance
6. Contribution to Indian Knowledge Systems
7. Present-Day Relevance
8. Conclusion
9. References

Writing Rules
- Paragraph form (no bullet answers)
- Simple, clear language
- No plagiarism, No copying from others (5 marks will be deducted if found so)
- Proper headings compulsory
